---

Don:

As I am sure you heard today from Paige that we have received concerns from a property owner about properties at (b) (6). We need to do whatever we can to get all backfill and topsoil into these properties before we depart for the break. I am sure you know that the drainage ditches need to be formed with the clay and then topped with topsoil – maybe more clay here than topsoil covering.

We also need to get most of (b) (6) done especially the FJD02 portion and at least the grids along the east side of his house on FJD03. Thanks for your effort.

Gary Moore
